

Subject: In the style of .

Hello everyone , another project for those who might be interested . And even if your not it might be instructive , amusing or yet another distraction to while away the time . So please research them at your leisure either way . Re the assignment ; its very simple really . Choose a subject / artist and develop research and finished artworks in the style of the practitioner listed . Some of the artists may be unfamiliar to you which is no bad thing . Look at style , colour , visual language , technique if possible and generally the overall look of the thing . But try researching all of them anyway ; certainly for the most positive educational benefit that is . Most of all enjoy it . Even a half baked Mike Yarwood or Rory Bremner impression would be more than acceptable .

Richard Diebenkorn - Landscape / gardenscape .

Odilon Redon - Still life , flowers .

Ben Nicholson - Still life , objects / landscape .

Jim Dine - Drawings of everyday objects .

Milton Avery - Landscape .

Derek Gores - Collaged portrait / self portraitor butterflies .

Henri Rousseau - Garden .

Andre Derain - Landscape self portrait / portrait .

Sonia Delauney - Into abstraction .

Georgia O'keefe - Flowers .

Rene Magritte . A view from your window .

Richard Dadd - Fantasy .

Helen Frankenthaler - Into abstraction .

Pray you are all safe and well, keeping reasonably sane , not putting on too much weight and of course imbibing in moderation . Hum , not sure about the last one . On second thoughts ignore it .

Kindest regards as always

Chris Dart
